

That man's tastes and the whimsies of Old Mother Nature don't always agree is, as they say in the copy-book, self-evident.

Man plants cotton, but Nature brings against it 47 divisions of boll weevils. Man throws in poison dust, but Nature counter-attacks with a barrage of rain and washes the dust right off.

Man likes the graceful sweep of the weeping willow tree. But in our section the weeping willow frequently dies. The Experiment Station here has a name for what ever it is that causes the weeping willow to die. But just knowing it doesn't help much. Old Mother Nature has two strikes on a weeping willow tree before it's a couple of years old.

But she favors the cottonwood tree, a sorry specimen of the forest that man has little use for. Cut down a cottonwood tree and it bounces up again in no time. The one I thought I had "fixed for good" four years ago is brushing up against the house once more—and this time we're going to cut down the tree and take out the stump, too.

It's a commentary on man and his possession: He can't keep the things he wants, and can't get rid of the others.

Half of the weekly newspaper editors of Ohio don't write editorials, the Publishers' Auxiliary tells me.

They give various reasons, including that old chestnut about "not having the necessary time." There are several truths about the profession of editorial-writing, and this is as good a time as any to mention them:

Time isn't much of a factor in the actual writing of the editorial, from an hour down to as little as 10 or 15 minutes. The real time is consumed in reading, travel, visiting whatever the source of your editorial-writing happens to be, but you do these things because you like to, would do them anyway, and so they can hardly be charged up to "work."

Editorials have no money value whatsoever. They carry a certain ethical quality called "prestige"—but you can't cash it. A fellow writes strictly because he wants to, and because he feels, rightly or wrongly, that he has something to say. And his writing is just about the least of all the things a small-city editor does—and always has done—in the business of manufacturing something new every morning and killing it every night... an evening newspaper.

Box, Reserve Seats Go on Sale Aug. 17

Forney G. Holt announced today that box seats and reserved seats will go on sale Thursday, August 17.

All football fans who had boxes and those who had reserved seats last year will be given opportunity to purchase the same box and reserved seats again this year. The price of box seats will be \$10.00. Each box will accommodate eight people. Reserved seats will be \$1.50 each for the season.

Eleven rows of seats in the stand in front of the press box will be reserved. The middle section on the east side will also be reserved for out-of-town guests. Box seats on the east side of the field were opened last year to take care of those people who desired them. We still have a few of those available this year.

Hope will play six home games this season. The cost of box seats and reserved seat does not include admission to the games. You may reserve box seats and reserved seats in the stands by coming to the high school office or calling in your reservation.

The price of home games this year will be—adults \$1.00, all tax included; students 40 cents, all tax included. For additional information, call the high school office, telephone no. 451.

Bell to Spend \$726,000 in City of Hope

Approximately \$726,000 will be spent to bring dial telephones and other improvements to Hope as a part of the proposed state-wide telephone construction program, P. J. Poe, manager here for the Southwestern Bell Telephone Company, said today.

Earlier the company had announced its plans to spend 38 million dollars in Arkansas for telephone construction by the end of 1933, provided increased rates for telephone service could be granted in order to justify the large expenditure.

Poe explained what the program would mean to Hope in the way of improved and extended telephone facilities.

"Dial telephones," he said, "will give the people here the best telephone service it is possible to furnish. Dial telephones are easy to use with speed and accuracy. They place the entire capacity of the telephone system at your command any hour of the day or night."

Poe pointed out that the dial equipment will be tailor-made to fit the needs of Hope.

A new building will be needed to house the dial switching equipment. While the building is going up, engineers will plan the equipment specifications and telephone factories will be producing it. After the building is completed, then comes the big job of carefully assembling and installing the dial equipment requiring thousands of connections, each one carefully soldered by hand.

Rural telephones served by the local exchange would also have dial service. The present demand for rural service would be met in full. With the completion of the program in 1933, the number of telephones in rural areas served by Bell exchanges in Arkansas would be nearly doubled, and would be eight times as large as the number at the end of World War II.

Poe pointed out that everyone waiting for service here and those on party-lines who want individual or two-party line service will be taken care of in the company's proposed program.

Work planned for here would include substantial expenditures for more cable and wire facilities. These plans have not been worked out in detail pending the result of the company's request for higher rates, Poe explained.

Converting the telephone system to dial here and in 30 other Arkansas exchanges is only part of the proposed program. In all 77 Arkansas exchanges the company operates, enough telephone facilities would be provided to serve everyone who wants a telephone with the kind of service he wants.

Poe pointed out that the five, postwar years have seen tremendous growth in the demand for telephone service. Since VJ Day, the company has spent more than \$200,000 in Hope and the number of telephones in service has increased from 1,596 to more than 2,540.

Poe emphasized that the company wants to go ahead with its dial conversion plans here; it wants to provide telephone users with service second to none.

"However," he added, "the company must improve its earnings on operations in the state so it can justify investing 38 million dollars in what would be the most extensive telephone construction program ever carried out in Arkansas."

"Unlike many other business, the telephone business cannot pay for any significant additions to its plant out of earnings because its earnings are never that large. This money must come from miserly millions of people who are willing to invest their savings in the telephone business."

"But, like any other business, the telephone industry can attract investors money only through prospects of earnings that compare favorably with those of other businesses. Right now, we are earning less than two cents on every dollar we have invested in Arkansas. That's even lower than during the worst of the depression."

The company plans to ask the Public Service Commission to approve higher rates. Specific rate schedules including the increases are now being worked out, and will be made public in the next week or ten days, Poe said.

He indicated that increases to be asked would provide prospects of earnings adequate to permit the company to undertake its "Great Arkansas program."

Packard Strike Ends 3 Months of Labor Peace

Detroit, Aug. 15 — (AP) — A strike at Packard today put a sudden end to three months of labor peace in the automobile industry.

The CIO United Auto Workers, in what company management promptly referred to as a "pressure move," called a walkout of Packard's 8,000 employees last midnight.

The strike came as Packard was getting up headway in production of its new 1931 car model. It was the first strike of consequence in the industry since Chrysler and the UAW came to terms last spring.

In comparison, however, the Packard strike was much less severe as regards overall effects. The Chrysler walkout directly or indirectly idled 150,000 men, including Chrysler's own 85,000.

Packard and the UAW had been in a contract dispute over issues of pensions, insurance, and a cost of living pay increase.

Earlier yesterday the union served notice it would strike at midnight, and the deadline passed without a settlement after 12 consecutive hours of negotiations. The company union contract had been extended on a day to day basis since its formal expiration last June.

Switch Engine Hits Car, Man Escapes

A Missouri Pacific switch engine struck an automobile at the 6th Street crossing of the L & A today and the driver of the vehicle, G. B. Moran, 1021 West 7th, escaped with minor bruises. However, he was taken to a local hospital for treatment.

The incident occurred about 9:30 a. m. The engine caught the right rear fender of Moran's auto and turned it around on the track. The engine was traveling very slowly and was able to stop before rolling the car.

City police investigated the accident.

Students Urged to Register Before Aug. 23

Forney G. Holt, High School principal, announced today that all High School Students who have not registered for this year's work should do so sometime before August 23rd. The office at the High School will be open for this. Any new student that will be in the ninth, tenth, eleventh, or twelfth grade next year should register now.

The bookstore will be open during the week of August 23rd to September 1st. Students can check books at that time. The calendar for next year's school term will be published soon.

McMath Will Try to Help Get Plant

Washington, Aug. 15 — (AP) — Gov. Sid McMath of Arkansas, but to help get the proposed \$200,000 H-bomb plant for the state, was to meet in a "strategy" conference with members of the Arkansas congressional delegation today.

After that meeting the governor plans to confer with W. Stuart Symington, chairman of the national security resources board, and then with officials of the atomic energy commission. Both agencies have a voice in saying where the H-bomb plant will go.

Tomorrow McMath has an appointment with President Truman. Yesterday McMath called on Secretary of the Treasury John W. Snyder and Army Secretary Frank Pace, both Arkansians.

Rail Unions Say 'End of Rope' Near

Washington, Aug. 15 — (AP) — The White House continued efforts today to avert a possible nationwide railroad strike but union officials said they are near "the end of our rope."

Chiefs of two big unions representing 300,000 trainmen and conductors agreed "reluctantly" to go back for more peace talks with John R. Steelman, assistant to President Truman.

W. P. Kennedy of the Brotherhood of Railroad Trainmen and R. O. Hughes of the Order of Railroad Conductors said they could see nothing accomplished at a four-hour meeting with Steelman tonight. They said Steelman, however, was optimistic something could be worked out today.

But, said Kennedy, "Unless we make some progress, it looks like we will be at the end of our rope."

A spokesman for the railroads told reporters, contrary to what Kennedy had said, that progress was being made in the conferences with Steelman.

Kennedy spoke of possible wildcat strikes, contending that the members of the two unions are "all upset over this deal." He said the dispute has gone unsettled now for 17 months and the men are anxious to strike.

The unions are seeking a reduction from the present 48 hour week to a 40 hour week for workers in yard service—without loss in pay. A presidential board recommended the shorter work week but not as much pay as the unions desired.

Also, the unions want wage adjustments for nonyard workers they represent—to give trainmen and conductors on the trains the same respective pay rates as those now received by firemen and engineers manning the locomotives.

The same presidential board flatly turned down his last request saying engineers and firemen traditionally have received a higher rate.

Pilot-Spotter Takes Trip With Correspondents and Decides He Has a Good Job

By DON WHITEHEAD (For Hal Boyle)

With U. S. Troops in Korea—(AP)—An American pilot took a look at the way warbound creatures live in this war. Then he decided maybe he was lucky to be spending his time flying over enemy lines.

The pilot is Lt. Baird King of Cedar Rapids, Iowa. He flies one of those little planes that hover over enemy lines spotting targets for the 25th Infantry division artillery.

King did the same job in World War II. Sometimes he felt he was having a pretty rough go of it. But the other day he agreed to fly two correspondents from the front line area back to a coast city where they could send out their stories of the day's fighting.

It was almost dark when King landed his four-seater plane at the strip outside the city. The two reporters suggested King stay at the airstrip where he could get into the city and telephone their stories to Tokyo for relay to the United States.

King said hesitantly: "Would you mind if I stayed with you? I'd like to see how reporters work."

It was 8 p. m. and a captain at the strip said there was no transportation available to go into the city—40-minute ride over washboard roads.

Then somebody said "a wrecker is pulling a wrecked truck out of a ditch down the road. Maybe the driver would give you a lift."

King trudged along with us a half mile down a dusty road to where the big wrecker was working. A corporal said "Sure, we'll take you as soon as we snake this wreck out."

So we stood watching the boys work while swarms of mosquitoes and night-flying insects concentrated on King.

An hour and a half later the wreck was tied snugly to the wrecker and we climbed aboard. The four-ton monster joggled over the roads. We stopped once to pick up another wrecked vehicle and then we were finally dumped off at the city limits.

We finished our work at 4 a. m. after another 30 minutes we managed to get a ride to a replacement depot where there was free lodging with a cot and blanket.

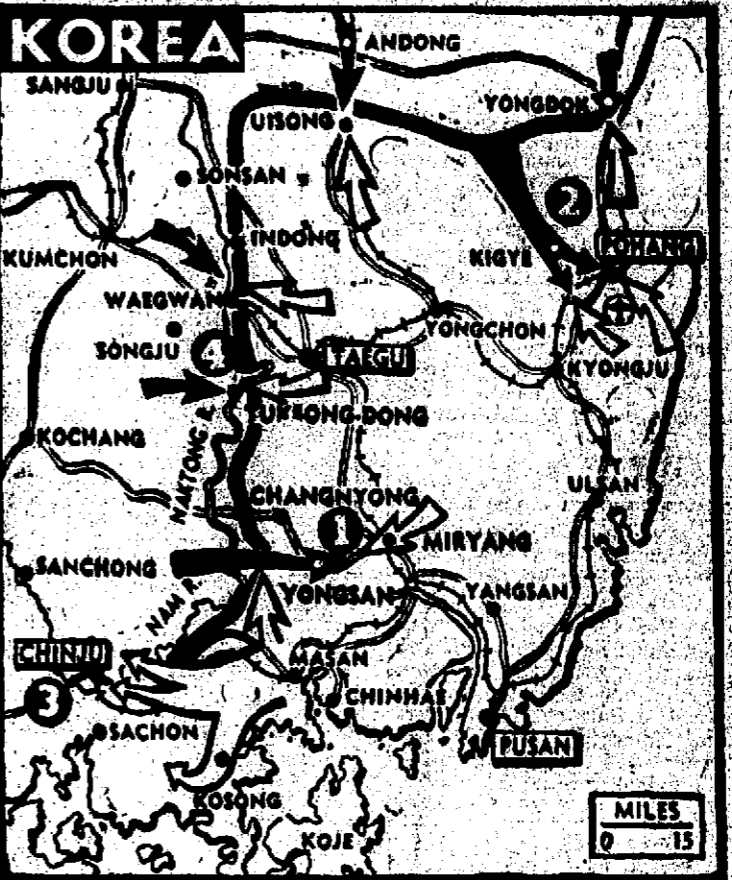

At 6:30 a. m., we shook King, who was asleep, and told him we had to get moving. We bathed under a trickle of water dripping from a shower nole, grabbed a breakfast a hasty breakfast and hitched another ride back to the airstrip where King's plane was parked.

We were soon back at the forward landing strip.

"Where are you headed now?" King asked.

Toward the front, we told him. American troops were on the move and it was a story we had to have.

King shook his head slowly. "From here on," he said, "I'll never gripe at my job. You guys are nuts."

Democratic Delegates Are Named

At a meeting here yesterday the following delegates were named to the State Democratic Party convention:

A. A. Albritton, A. S. Williams, Graydon Anthony, H. B. Barr, Basil York, Lyle Brown, Sid McMath, Dorsey McRae, Jr., John P. Vesey, James Pilkinton and W. S. Atkins.

Alternates: George Peck, J. P. Tolleson, Claud White, John Wilson, J. W. Wist, Dr. F. C. Crow, Robert Turner, Lloyd Spencer, Frank Hill, Ury McKenzie and W. H. Gunter.

W. S. Atkins, chairman of the Democratic Central Committee, asked that all successful candidates come by his office in the old Arkansas Bank Building and get their certificates of certification to office.

50,000 Pine Seedlings Ordered

The tree planting program in Hempstead County was given added impetus this week with an order for 50,000 pine seedlings submitted by Graydon Anthony. This order covers approximately half of the trees Mr. Anthony will plant this year. Other ordering trees this year, Foster, J. M. Case, and R. S. Foster.

The tree planting program is sponsored by the Hope Chamber of Commerce and agricultural agencies. The Chamber of Commerce is making available a tree planting machine, and the Soil Conservation District is planning to furnish trees free of charge to supplement trees purchased from the State Nursery.

Ex-Star Negro Newsboy Gets Masters Degree

A former Hope Star newsboy paid his first visit in years to the Star office this morning and recalled back to 1933-34 when he delivered papers in the Ravine, a Negro section on the west side of Hope.

He is Lawrence A. Walker, Negro, who only this month received his master of science degree from Iowa State College, Ames, Iowa. He now resides in San Antonio, Texas where he teaches in the public schools.

Walker received his bachelor of science degree in from Arkansas State in 1944 and except for the time he spent in the service has been working summers on his masters degree.

School teaching is nothing new to the Walker family—his mother teaches at Yeger and his father is principal at Hopewell school here in Hope.

Reds Ordered to Win This Month in Korea

Tokyo, Aug. 15 — (AP) — North Korea's premier, Kim Il Sung, today commanded his troops to win the war by the end of the month. Otherwise, he said, South Korean and American forces will become stronger.

Celebrating the fifth anniversary of Korea's liberation from Japan, Kim ordered his troops "to drive the United States and South Korean forces from Korea by the end of August."

In Pyongyang, the North Korean capital, for the occasion were a score of Chinese Communist leaders, including Li Li-san, Moscow-trained "firebrand" of the Chinese Communist movement.

The official Red China radio at Peiping said last week in a broadcast aimed at Tibet that the Chinese Communists had offered to help North Korea in the war but had been turned down at that time.

Political implications of the Red Chinese visit to Red Korea were not clear. Some quarters in Tokyo said it could signal a move to obtain closer support from the Chinese Communists now.

President Syngman Rhee of South Korea, observing the republic's second anniversary, said today, his emergency capital: "The world knows through bitter experience... that Soviet Russia is trying to conquer the world by force. The democratic world sees that leaving Korea to the aggressors will mean avowing continuation of aggression... where in the world."

For the first time, Rhee said, more than 50 nations have united their forces in Korea against "this common enemy."

From Washington, President Truman messaged Rhee: "I know that the aggressor will be repelled and that the people of Korea will achieve the freedom and independence which are their natural right."

Tank-Led Units Forge 7 Miles Beyond Nakdong

By NELMAN MORRIS

Tokyo, Wednesday, Aug. 14 — Red troops with tanks and other armor moved 7 miles today below Changyong, and to points seven miles east of the river.

They overran segments of U. S. 24th Infantry division, fighting that broke out on both sides.

General MacArthur's headquarters in Tokyo early Wednesday announced his usual morning report would be "omitted" because there had been no change in the South Korean situation.

The allied resistance to Communist advance slowed the war machine. North Korean forces captured Taegu, South Korea's emergency capital, on the fifth anniversary of V-J day of Korea's liberation from Japan.

The Changyong fighting, bloody but indecisive, thirty miles northward along the Nakdong river. U. S. and South Korean troops were reported thrusting everything at each other but settling anywhere.

A field dispatch said the tanks, armored cars, and other armor of the 24th division were reported in the Changyong area. The Red 6th was pushing serious but an American official said: "We are still confident we can hold the line." One Red battalion was reported to have been behind the American line. A Russian-made T-34 tank was reported to have been captured in the area. Frontline reports said the 24th division was reported to have gained made by the hard-fought 24th division. Many Believe
U. S. Should
Take All Korea

By JAMES MARLOW
Washington, Aug. 15 — (AP)— Many
of the top leaders in this country
think the U. S. army should oc-
cupy all Korea, if the Americans
whip the North Koreans in the
present fighting.

The reason is Russia. If Russia
lets the North Koreans loose, it
may send its own troops in to oc-
cupy all North Korea down to the
38th parallel of latitude, which di-
vides north from south.

On the other hand, if the U. S.
takes the south when they were
ready, they lost. And then the
U. S. moved back in.

Or would it once more move
into North Korea, taking it over
down to the 38th parallel, as it did
before. The Russians could argue:

ANNOUNCING
the biggest
telephone
improvement
program ever
proposed for
Arkansas...IF...

HERE'S news of interest to every citizen of Arkansas
—a proposed telephone improvement program which
will total \$38 million by the end of 1953.

This would be an even more intensive project than
the \$35 million construction program the telephone com-
pany has done in the five postwar years.

To people throughout the state, this Greater Arkansas
Telephone Program would mean more jobs, more money
in circulation, more business for local merchants.

To every customer the company serves, it would
mean more and better telephone service.

Just one obstacle stands in the way of carrying out
this program—the need for telephone rates to produce
earnings that would justify the investment of the many
millions of dollars the program requires.

The company wants to go forward—and it will—just
as soon as it can see prospects of adequate earnings.

Miss Carolyn Boswell Marries
Miss Carolyn Boswell and Donnell Ross were married at 9 o'clock Sunday morning at the home of Elder and Mrs. Howard White. The bride is the daughter of Mr. and Mrs. Albert H. Boswell of Bodcaw. The groom is the son of Mr. and Mrs. Ernest Ross, Hope.

The couple exchanged their vows before the fireplace in a double ring ceremony with Elder Howard White officiating. The mantle held an arrangement of summer flowers. Mr. Boswell gave his daughter in marriage. The bride wore a soft blue wool dress with black velvet accessories. She carried a white Bible topped with a purple-throated orchid.

Mrs. Melvin Wynn, El Dorado, was maid of honor. She was dressed in white pique with white and navy accessories.

Melvin Lynn, El Dorado, served as best man.

Others attending were: Dr. and Mrs. Elsworth Birk, Magnolia; Mrs. Albert Boswell, Bodcaw; Mrs. Junior Boswell, Bodcaw; Ernest Ross, Hope; Mr. and Mrs. Lee England and Mr. and Mrs. Don Gunn, Hope.

Following the wedding there was a reception at the home of Mr. and Mrs. J. D. Boswell. Their home was beautifully decorated with roses.

After the reception the couple left for a wedding trip in Colorado. They will be at home on Peach St. in Hope.

DOROTHY DIX Restless Husband

Dear Miss Dix: I have been married for thirty years to a man whom I still adore. I have given him three fine sons of whom he is very proud. I have been a good mother, a good wife, a good homemaker. I have saved my husband's money and helped him succeed. I am good-looking, still have my figure and dress well. I have kept up with the times. But at middle age my husband has suddenly tired of me and wants to be free. He says he is in love with no other woman, but he just doesn't want to be bound down by domestic ties, and asks me to divorce him. What shall I do?

MARION

Answer: I should say that your best plan would be to ask him to agree to a separation for a year. Tell him that you have no desire to hang on to a man who regards you as an encumbrance and wishes to be rid of you, but that before he messes up your life and the lives of the children's lives with a divorce, you want him to be sure that he really wants one.

Age of Indecretion

It is a very common thing for men in the turbulent 50's, which appears to be the age of indecretion, to have domesticity puffed upon them. They get suddenly sick and tired of it as they do of their business or their professions and crave a change. They long for liberty and freedom to enjoy themselves. They want to be able to come and go as they please without giving an account to anyone.

While this mood lasts many a man gets a divorce from his wife or retires from business and generally with the same disastrous result. The freedom that he longed for turns to dust and ashes on his lips. He is lonely and miserable without his old wife and bored to death with nothing to do. The girls who seemed so glamorous when he was felled off from them in the domestic fold find to his silly little chits with whom he has found in common, just as he finds that the idleness that seemed so desirable when he was busy becomes an insupportable burden when he has nothing to do but kill time.

But you cannot argue with a man whose matrimonial fetters have begun to chafe him, and who thinks that he would be perfectly happy if he were free of them. The only thing that will bring him back to his senses is experience.

Dear Miss Dix: My husband tells me that he does not love me. He says that he would not speak to a bum the way he talks to me, and that he has more respect for the women of the streets than he has for me. He seems to blame me for this and think I should do something about it. I do not know what causes his disrespect, as I have been a good wife to him. I am honest, moral, and neither in my manner nor language am I common or vulgar. I offered him a divorce. We have no children and I would not expect alimony, as I am young and healthy and able to take care of myself, but it appears he does not want to leave me. I am completely disgusted with marriage and yet I don't want to quit, and I love him in spite of everything. What shall I do?

HILDA S.

Answer: Apparently marriage is one of the things that your husband can neither do with, nor without, while you seem to be a glut for punishment. So one's only conclusion in your case is that you are one of the couples who get a sort of sadistic pleasure out of domestic fights.

You are like those strange people who enjoy poor health and who are never really so happy as when they are miserable. Evidently your husband is the torturer type who delights in tormenting someone in his power who is too weak and cowardly to strike back, while you must be one of the doormat wives who enjoy having a man trample over them.

It is easy to see why your husband doesn't respect you. It is because you have no self-respect yourself. Every man treats his wife the way she demands to be treated, and if you had made your husband understand from the start that he had to treat you as a lady, even if you were his wife, you would never have had to put up with the degradation you have suffered.

Dear Miss Dix: I have a big family that I have to cook for, and when I go to get breakfast I find the milk is sour and the butter oil because I have no refrigerator. My husband says we can't afford one, although he is going to buy a new car. He accuses me of nagging every time I say anything about getting a refrigerator. Do you consider that nagging?

MRS. X.

Answer: There are two kinds of nagging. The one that is fault-finding and the other that is a righteous insistence on justice and fair play, and while some wives nag too much others don't nag enough. I'll bet your husband has all the latest doodads and labor-saving devices to make his work easier. You have a right to the same conveniences in doing your work, and if you have to nag to get them go to it. And more power to your tongue.

Dear Miss Dix: I am past 28, but due to my work and because I am bashful and a great lover of sports I have never taken any interest in girls. Never had a sweetheart. Never went with even a while in high school. Two months ago I met a girl with whom I have fallen desperately in love. She

Two Races in Last Primaries Still in Doubt

Little Rock, Aug. 14 — (AP) — At least two races in the Democratic primaries remain in doubt.

One is a justice of the peace contest in Izard county, which ended in a tie in last week's runoff; the other is the sheriff's race in Conway.

An attorney for Sheriff D. E. Thomas of Conway county has filed suit in Circuit court challenging validity of 512 votes cast in July 25 preferential primary. The county central committee has certified that Marlin Hawkins won the nomination, defeating Thomas, 2,389 to 2,164.

Thomas contends that 269 absentee ballots and 263 other ballots are invalid and should be thrown out, thus making the final count: Thomas 2,167 and Hawkins 1,688.

husband gets any diversion out of torturing you, you will either have to get a divorce or grow a thicker skin. For the teaser is wedded to the idea that he is witty and nothing will divorce him from it.

Of course, the best remedy for the teaser is to hand him a hot one back. Publicize his pet weakness and you will make him afraid to expose yours, for teasers notoriously can't stand to be teased. If you can't do this, learn to laugh at his teasing. That will take the edge off it, but as long as he can make you cry you will just incite him to further effort.

Dear Miss Dix: I am about to marry the former wife of a man of notorious reputation. The lady has been awarded the custody of the child, a boy who is not yet 10 years old. I contend that the child's name should be changed to mine. The mother thinks that his name should not be changed regardless of his father's infamous reputation. Kindly give us your opinion on the subject.

E. V.

Answer: A man's earthly immortality depends upon his passing his name down to his children, and it's a terrible thing to deprive him of this by having the children's name changed to that of a stepfather, provided he has kept his name decent and honorable.

But it is a different story if he has befouled his name himself and made it a symbol of shame instead of a badge of honor. Under such conditions the father's name becomes a handicap to a child and he is fortunate indeed if he has a stepfather to throw over him the mantle of a respected name. So I agree with you that it will be far better for your stepchild's name to be changed to yours.

Climbers in Search for Missing Heir

Long Pine, Calif., Aug. 14 — (AP) — Four veteran mountain climbers lowered themselves over the east face of Mt. Whitney today in a last-hop search for Christopher Smith Reynolds, tobacco-heir son of singer Libby Holman.

The climbers plan to search remote ledges and crevasses and, if unsuccessful, will remain on the nation's highest peak overnight and start anew tomorrow. The other phase of today's rescue operations will see the removal by basket and ropes of the body of Reynolds' companion.

The frozen body of his companion, Stephen Rice Wasserman, was found in a snowy crevasse at the 11,500-foot level yesterday, a week after the two 17-year-old eastern scions and set out to conquer Whitney's toughest side.

Scant hope was held by veteran searchers that young Reynolds is still alive, unless he wandered off for aid for Wasserman. Today's search will be concentrated on higher crevasses of the 14,496-foot peak.

Young Reynolds' mother, former torch-singer Libby Holman, was ready to fly from Paris. The boy, heir to a \$7,000,000 fortune, was born to Miss Holman shortly after her husband, Zachary Reynolds, was mysteriously slain.

Wasserman's parents, Mr. and Mrs. William Stix Wasserman of Philadelphia and New York, were at nearby Whitney portal when the body of their son was identified. The father, a millionaire broker and economist, had spent most of the day flying over the area.

Young Wasserman's body was found at the base of the sheer 3,000-foot granite cliff that challenges climbers approaching from the east.

Identification was made by W. C. Rigg and Ralph Adams, operators of the Cervo-Gordo elevator, for which the two boys had worked this summer. The elder Wasserman is part owner of the mine.

Mobile, Ala., Aug. 14 — (AP) — A Sheridan, Ark., soldier was one of 16 GI's, wounded in the Korean fighting, who left here by plane today en route to the army and Navy General hospital at Hot Springs, Ark.

The C-47 transport left Brooklyn air force base at 9:30 a. m. on the last leg of their flying trip from the fighting zone.

The Arkansas aboard is Pfc. Louis Hinkle.

Woman Claims She Saw Mission of Virgin Mary

Necedah, Wis., Aug. 14 — (AP) — back-country farm woman said today that at the stroke of noon she was granted a vision of the Virgin Mary, appearing to her for the seventh time. A multitude of persons gathered for the occasion.

Mrs. Mary Anna Van Hooft said the mother of God appeared to her and told "me to pray and pray hard. The time is short."

Capt. Preston McEvoy, chief of the state traffic police detachment, said that "nearly 100,000 persons were jammed into the area, standing in a blinding sun amid billowing clouds of sand, to witness the scene."

About 60 priests and 30 nuns were at the kneeling wall, back the shrine and in front of the statue. At 11 a. m. Joe Ann and Mrs. Van Hooft's seven children, crowned a statue of the virgin with roses. Several persons fainted.

The crowd had multiplied from 20,000 at midmorning, with more than a hundred chartered buses and several special trains arriving.

The gaunt 41-year-old farm woman emerged and knelt alone before the shrine. A loudspeaker intoned the decades of the rosary.

After a moment Mrs. Van Hooft covered her face with her hands and went directly into the house. Afterward she relayed the message she said was given her by the virgin.

I BROUGHT Lou Bryer up to date on most of the details of Phajol's murder while we sipped our beers. He refused a second beer and his refusal indicated that he was on a job. I was sure the job had something to do with Phajol.

I spoke to the bartender: "How's the Norton kid? Has he come out of it yet?"

It upstairs. Bryer already h room up there, didn't he?"

Foster looked flustered, gazed around the lobby. It empty; Straight-Flush John was gone.

"You're handing me a F sold Foster. "Straight-Flush J nie wasn't here then!"

I grinned. "So the lobby deserted when you took out bribe-case?"

"He's still sleeping it off. Too bad about that guy. The only thing wrong with him is that he

doesn't have Dominico's dough. He hasn't done a day's work in a year. His mother has some money and that spoiled him."

"Dominico's a tough boy for his age," I said. "He sure can punch."

I told Bryer about the incident in the taproom in which Dominico punched the Norton boy.

After that Bryer excused himself and I went out to the lobby. Foster, the clerk, was busy with his bookkeeping. I put a \$5 bill on the desk and said:

"I'd like some answers to some questions."

Foster lost interest in his books. "I don't know if I can give you

"Then put on something, is important."

"Here's a sample question. How long have you known Lou Bryer?" Foster looked relieved. "Why, never, before today."

"If he was a total stranger, why did you let him check in without requiring payment in advance when he had no luggage?"

investigator, is in the hotel, probably with Pete Gremch."

Her eyes widened. "I don't understand."

"Plenty. I made inquiries of Bryer before I took the job of your father. Bryer is sharp enough to guess that I was going to buy your father on

Foster colored slightly. "He— he had credentials."

"I laughed. 'Sure he had, but he didn't show them when I saw him registering! The fact is he arrived before I did today. You may as well admit you let him look inside Phajol's briefcase.'"

Foster became slightly pale. "I

quick, fresh word on what the athletes do and don't wear.

Why, just in the past few days the news wires carried a report that gorgeous Gussy Moran might surrender to the lure of professional tennis gold — if enough of it is offered.

The curvacious California Miss suddenly has become the No. 6 desirable of the pro promoters — more so than the Wimbledon Champion Budge Patty, say, or Louise Brough, perhaps the best female tennis player extant.

Miss Moran is a very nicely arranged brunette package who hits a fair tennis ball. But as far as we can ascertain she never has won any of the big ones. The pros want her because she is given to wearing lace on her tennis pants.

Miss Moran, became the sensation at Wimbledon last year because when she stooped for a low ball, a delicate bit of fringe peeked out from her flaired skirt. The tournament immediately became secondary.

(When Wimbledon came upon again this year, I saw anybody interested in Miss Moran for her own sake, or for American tennis service? Not so you could tell it. We read rumors, decorated with pictures, of her new outfit — a bloomer-type affair, with pleats, no less.)

When Gussy played in India — or was it Egypt? — she excited the natives with a pair of provocative black shorts. They raised such a commotion that it became necessary for her to issue a communique later insisting they weren't under-things at all, just a regulation garment of another color.

Now sports writers properly equipped for their job would have recognized the distinction right away.

Staid old St. Andrews, Scotland, which worships at the shrine of golf, didn't enthuse this spring over Frank Stranahan's crisp towel shots or Willie Turnesa's deadly wedge play.

The burr-tongued scots became enthralled over a mellow-lynned American crooner in a flowered shirt, Crosby by name, and a little round Georgia man with a flair for plaid caps and a loud-colored struts, name of Dynamite Goodloe.

It's impossible now to cover big professional golf events without encountering some sort of verbal log jam in the case of Jimmy Demaret, the Ojai, Calif., walking rainbow. You call him "natty," "dapper," "clothes horse, and you start groping around for new and fresh phrases.

The Bauer sisters wild, enthusiastic golf swing is minimized by the color of their sweaters and the tenor of their shouts.

Wrestling, in case you write it, offers the same problem. Toe holds and Indian death locks pale into insignificance. The important thing is what kind of robe is Lord Carlton wearing tonight and what's the style of gorgeous George's hair.

New York, Aug. 15 — (AP) — We haven't enrolled yet in Mrs. Figurelatter's School of Fashion and designing, but that is not to say we don't think it's an excellent idea. We do.

For a long time we have felt it is not enough for the well-rounded sports writer today to know how to describe an athletic combat. He also must be conversant with things sartorial, be ready with a quick, fresh word on what the athletes do and don't wear.

Why, just in the past few days the news wires carried a report that georgious Gussy Moran might surrender to the lure of professional tennis gold — if enough of it is offered.

Only Bob Lemon, ace right-hander, has a better record on the Cleveland team.

Lemon, who goes after his 19th victory today in the final of a two-game series against the pace-setting Tigers, has scored eight of his triumphs against first division teams. Five of Lemon's conquests have been over the fourth-place Boston Red Sox. Wynn has beaten the Sox only once but holds triumphs over Detroit and New York.

The Indians' pennant outlook last night as he turned back the Tigers. 3-2, in a ten-inning thriller before 60,120 fans in Cleveland's Municipal stadium. The triumph moved the runnerup Tribe to within 2 1-2 games of the Bengals.

The game was one of the most dramatic of the season. The Indians scored a run in the second inning and Wynn nursed this slender margin until the ninth.

In the ninth, with one out, Hoot Eersv beat out a slow bouncer over the mound for a single. Johnny Groth followed with a home run into the lower left field stands and a deep gloom settled throughout

The vast throng began to move silently toward the exit gates as Hal Newhouse retired the first two Indians in the last of the ninth. But Al (Flip) Rosen brought them back in a hurry by socking a home run well over the left field fence to tie the score. The best was Rosen's 31st of the year.

The Tigers threatened in the tenth but Wynn struck out George Kell with a runner on second to end the bid and the Indians quickly broke up the game in their half of the inning.

Today there are about 11,500,000 persons aged 65 or over. This group, according to the census last year, will increase to 15,000,000 by 1980.

It is estimated that 3,500,000 of the 11,500,000 now 65 or over have no money income of their own and of the remaining 8,000,000 with some income, almost a third have less than \$500.

The game was the only one in the American League. The other teams were not scheduled to play. Action in the National League also was slight. In the only game played, the Chicago Cubs defeated the St. Louis Cardinals, 7-6. The improving Cincinnati Reds thrashed the Pittsburgh Pirates 13-8.

The Cubs staged a last ditch rally to whip the Cards, scoring twice in the ninth after the Red Birds had taken the lead with two in the eighth.

Lawyers Want Robinson in 11th District

Pine Bluff, Aug. 15 —(P)—Lewis M. Robinson of Pine Bluff is the choice of fellow attorneys in the 11th judicial district to serve as circuit judge until Jan. 1. He would succeed the late Judge T. G. Parham, who died Aug. 4, while unopposed as a candidate for Democratic re-nomination. Under Arkansas law Robinson would not be a candidate to succeed himself.

Governor McMath announced last week he would follow the committee's recommendation in naming a successor to the post.

Attorneys from the district, which includes Jefferson, DeShazo and Lincoln counties — named Robinson as their choice at a meeting here yesterday.

Harry T. Woodruff and Sam M. Levine, both of Pine Bluff, announced they would be candidates for the four-year term as judge beginning Jan. 1.

Robinson was a state representative from Yell county in 1927 and 1929. He is a former prosecuting attorney of the fifth circuit and has served as state fire marshal and as attorney for the state workmen's compensation commission.

Sees Defeat of Lucas and Taft

Washington, Aug. 15 —(P)—The politicians most affected took with a grain of salt today a prediction by Louis H. Bean that Senators Taft (R-Ohio) and Lucas (D-Ill) will go down to defeat in the November election.

Bean, a department of agriculture economist who has attracted attention by his political predictions in the past, forecast in a Look magazine article that Republicans will gain in this year's voting but won't win control of congress.

But politicians generally discounted many of Bean's findings — based primarily on past election trends — because they were made without reference to political effects of the Korean fighting.

Besides Taft and Lucas, Bean forecast the defeat of Democratic Senators McMahon and Benton of Connecticut, Myers of Pennsylvania and McCarran of Nevada. He said Republicans had a 50-50 chance to beat Senator Taylor (D-Idaho), who apparently already has been beaten in the Democratic primary.

Bean listed Republican Senators Donnell of Missouri and Millikin of Colorado as likely to join Taft in defeat.

Bean's prediction that Taft will be beaten in Ohio by State Auditor Joseph Ferguson, the Demo-

cratic nominee, brought this comment from Taft: "Every year a new prophet arises to foretell the results of elections and disappears just as rapidly after the elections."

There was some evidence that Taft's friends think Bean's forecast might be some help, since it could serve to help dispel overconfidence in the ranks of the Ohioan's campaign workers.

Lucas told a reporter he thinks Bean included him among those the economist predicted would be defeated "so he could sell his article."

"It looks like he picked the heads of the two policy committees so that he would attract some attention," Lucas said. Lucas heads the Democratic policy group and Taft, the Republican.

Bean forecast the biggest Republican gains in Connecticut, where he said Democratic Senators McMahon and Benton are likely to be beaten.

McMahon said he usually isn't a betting man but he'd like to back with some cash his belief that Bean doesn't know what he's talking about so far as Connecticut is concerned.

In 1931 Chick Hefey of the Cardinals won the National League batting title with an average of .3489 over Bill Terry's .3486 and Jim Bottomley's .3482.

Plenty of Evidence That Moscow Is Having Trouble With European Satellites

By DeWitt MacKenzie, AP Foreign Affairs Analyst. Evidence multiplies that Moscow is far from having succeeded in communizing her satellite

empire in eastern Europe. Indeed it's becoming increasingly clear that Soviet efforts to bring that part of the continent into the Red fold — to say nothing of an ideological conquest of Western Europe — will be a long range affair at best.

It's the old, old story that you may compel physical obedience by force, but you can't change men's minds by force.

Signs of hostility to the Soviet regime continue to manifest themselves in various parts of eastern Europe despite the use of the iron hand. Disaffection is so prevalent in some states that there is an almost constant purge of the disturbing elements going on.

Specifically, in Czechoslovakia many people recently have been sentenced — some of them to death — on charges of plotting to overthrow the government. And it should be noted that this is one of the key states of the Red empire.

Over in the three little Baltic republics the Russians have been waging a purge to protect the coastal defense secrets. The authorities reportedly fear fifth column activity by Baltic nationalists along the seacoast where the Soviet is said to have submarine pens and rocket launching sites.

Hungary and Poland have been furnishing their quotas of alleged disaffection. And of course Moscow has relegated Yugoslavia to the doghouse with Tito.

So the story runs until we have sufficient evidence to warrant the assumption that Moscow never will subdue all of the present genera-

tion in eastern Europe. The Soviet will have to rear and communize another generation before the danger of revolt is wiped out, if ever it can be.

So there we have another excellent reason why Moscow isn't challenging fate by employing strong-arm methods to conquer Western Europe. She knows that, despite her 170 divisions of troops, it would be making a terrific gamble to push ahead without consolidating territory already overrun.

The general who leaves pockets of rebels behind him is asking for trouble.

Naturally another powerful reason for the stoppage of the Red drive in Europe lies in the newly acquired strength of western Europe from the Marshall plan, and the Atlantic pact military project. And that's not to overlook the fact that America's striking power in atomic bombs is an unknown quantity to Moscow — we hope.

Thus it isn't strange to find communism turning its attention more and more to Asia. As Sir Gladwin Jebb, British delegate to The United Nations, pungently stated in a speech:

"Here (Asia) is the last arena in which, repulsed in Europe, it is now clear that the dark forces of Communist imperialism are concentrating for the kill. All the new emergent Asian states are affected by this, and they know it."

That is where Moscow is able to maneuver others into the position of fighting for her. That is the field in which she can do the western allies untold damage if she can involve them in military and economic expenditures, while she herself builds up strength at home.

Small wonder that Russia should shift her main assault to Asia while she attempts to purge and consolidate her satellite empire in eastern Europe.

Control on in Los Angeles

Los Angeles, Aug. 15 —(P)—A court order in Los Angeles today despite a restraining order in which the city council, bolstered by irate citizens, talked down national union leaders.

After was thrown on hot coals from 3,000 miles away as Judge James Kirland in Washington, D. C. issued a temporary restraining order yesterday preventing Woods from lifting court.

This is the first time I have been enjoined against approving a resolution, said Woods, declaring he would abide by any court ruling. Woods told newsmen that action on the matter must await the outcome of the Aug. 24 hearing set by the court.

The injunction was issued on the complaint of the International Association of Machinists, (Ind.) with the backing of the Los Angeles city council representing AFL and CIO unions. The petition charged the city council had acted unlawfully without a proper public hearing when it passed the decentralization resolution last April 28.

Los Angeles is the first large city in the nation to ask for decentralization. Intervention yesterday was greeted by loud cheering from some 500 landlords and city council chambers.

They displayed signs advising motorists to "Go Home" and "You Don't Wanted Here." But a sign showed up with signs reading "Government of, by and for the Landlords."

Woods was given police guard to take him out of the chamber where the council flatly rejected his proposal that it adopt the Chicago plan letting neighborhood boards determine justifiable rent increases.

Indignant councilmen called Woods "a brash bureaucrat" and a giver of "unsolicited and unwelcome advice."

Woods told reporters "This is my first and last appearance before a city council."

Partisan Policy Truce Is Demanded

Washington, Aug. 14 —(P)—Senator O'Mahoney (D-Wyo) today demanded "a truce on partisan politics" in dealing with home front mobilization. He did so after two Republican lawmakers assailed the Truman administration's handling of the program.

"I think this is a very poor time for anyone — Democrats or Republicans — to challenge the motives of those who are called upon to make the extremely difficult decisions required," O'Mahoney declared.

"This of all times is a time for a truce on partisan politics, for partisan attacks are wholly uncalled for and only serve to weaken us."

O'Mahoney was replying to weekend attacks on the administration by Senators Aiken (R-V) and Martin (R-Pa).

Aiken predicted easy senate passage late this week of a house-approved bill which would set up authority for wage-price-rationing curbs, but he said President Truman declined "for political reasons" to ask congress for those controls.

Mr. Truman did ask for immediate power to allocate materials, set up priorities and curb credit. The bill which the house passed and which appears to face smooth sailing in the senate would also give him authority, for use when he saw fit, to control prices and wages and impose rationing.

Here is how the Inch Lines do their job in your county. Above is one of the 26 compressor stations which push the push behind natural gas and carries it into ten states between Texas and New York.

Stations like this form the heart of Texas Eastern's 3,200-mile transmission system. They are the visible sign of the valuable work being done in every county on these great pipe lines. Each station is a little different because it is specially designed to do a specific job according to its location.

The job of compressing gas and handling its flow in large volumes is a lot different from pumping liquids. It requires special equipment and know-how, and a plant the size of a factory.

The men who run this plant are your neighbors. The work they do day and night helps your county's progress and helps provide essential energy for our country which can be provided in no other way.
